Tobacco Stocks Report as of January 1, 1961

U. S. DEPARTMENT OF AGRICULTURE
AGRICULTURAL MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather
Director, Tobacco Division.

Stocks of leaf tobacco, by types and groups of grades . . .	12-15
Summary of tobacco leaf represented in inventories of tobacco sheet	16
Stocks of leaf tobacco, by types, showing separately quantities owned by dealers and manufacturers	17
Stocks of leaf tobacco, summary by types	18

BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes and types)

CLASS 1, FLUE-CURED TYPES

Type 11: Old Belt flue-cured; produced in the Piedmont sections of Virginia and North Carolina.
Type 12: Eastern North Carolina flue-cured; produced in the coastal sections of North Carolina, north of the South River.
Type 13: South Carolina flue-cured; produced in the coastal sections of South Carolina and the southeastern counties of North Carolina, south of the South River.
Type 14: Georgia and Florida flue-cured; produced in southern Georgia and northern Florida.

CLASS 2, FIRE-CURED TYPES

Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.
Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.
Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, and Murray; produced in a section between the Tennessee, Ohio, and Mississippi rivers in western Kentucky and northwestern Tennessee.

CLASS 3, AIR-CURED TYPES

LIGHT AIR-CURED (CLASS 3a)

Type 31: Burley; produced in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.
Type 32: Southern Maryland; produced in five counties of southern Maryland--Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

DARK AIR-CURED (CLASS 3b)

Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.
Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.
Type 37: Virginia sun-cured; produced in central Virginia, north of the James River.

CLASS 4, CIGAR-FILLER TYPES

Type 41: Pennsylvania Seedleaf; produced in Lancaster County, Pa., and the adjoining counties.
Type 42-44: Ohio filler; produced in the Miami Valley section of Ohio and extending into Indiana.
Type 46: Puerto Rican sun-grown, including primed (Deshojado) and stalk-cut (Mata); produced on the Island of Puerto Rico.

CLASS 5, CIGAR-BINDER TYPES

Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.
Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.
Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.
Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.
Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

CLASS 6, CIGAR-WRAPPER TYPES

Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.
Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

Type 72: Louisiana Perique.
Type 73: All domestic types of tobacco not otherwise classified.
Type 77: Domestic Aromatic.

FOREIGN TYPES

Type 81: Cuba (Havana).
Type 82: Sumatra and Java.
Type 83: Philippine Islands (Manila).
Type 84: All foreign-grown cigar-leaf not otherwise classified.
Type 90: Foreign-grown cigarette and smoking tobacco (Turkish and other).

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco lower than a year ago

Leaf tobacco stocks in the United States and Puerto Rico totaled 4,784 million pounds (farm-sales weight) as of January 1, 1961, based on the quarterly reports of dealers and manufacturers. This is a decrease of 61 million pounds in leaf inventories compared with the previous January 1, and 182 million from 2 years ago. During the October-December quarter, marketings of the 1960 crop totaled around 820 million pounds. This brought total marketings of the 1960 crop to approximately 1,665 million, or about 85 percent of total production. (About the same percentage of the previous year's crop was sold in the corresponding period last year.)

Stocks of burley were down 69 million pounds, or about 5 percent, from the previous January 1, but holdings of most other domestic types were fairly close to the levels of a year ago. Imported stocks of cigar leaf were at a record high level--up 22 million pounds, or more than 50 percent, over a year ago. Holdings of imported cigarette leaf were smaller by about 8 percent as compared with the previous January 1.

Stocks as of January 1 included about 708 million pounds (farm-sales weight) of leaf tobacco under Government loans, down a substantial 170 million pounds from a year ago. Loan stocks as of January 1 were divided as follows: Flue-cured, 546 million pounds; burley, 85 million; Maryland, 3.2 million; fire-cured, 40.7 million; dark air-cured, 18.5 million; and cigar leaf, 15.0 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Burley and Maryland stocks lower than on last January 1
Flue-cured slightly higher
Foreign-grown holdings smaller

Stocks of flue-cured tobacco totaled 2,609 million pounds as of January 1, 1961--an increase of 12 million over those reported the previous January 1, but 83 million below those reported 2 years ago. Marketing of the 1960 crop was completed by January 1, with producers' sales totaling 1,247 million pounds, 170 million larger than the 1959 crop.

Burley tobacco holdings this January 1 were 1,400 million pounds--69 million below the stocks of a year ago. Sales of the 1960 crop of burley leaf on the auction markets prior to January 1 this year totaled about 383 million pounds, or 80 percent of the crop. (About 88 percent of the 1959 crop was marketed through the corresponding date a year earlier.)

Maryland stocks of January 1, 1961, were 61.7 pounds--4 percent reduction from those reported a year earlier (64.2 million).

Stocks of foreign-grown cigarette and smoking tobacco (Turkish and other) were 211.0 million pounds--18.0 million pounds less than inventories of a year ago (229.0 million).

DARK TOBACCO STOCKS

Holdings of fire-cured and dark air-cured
smaller than on January 1, 1960

Fire-cured tobacco stocks, reported as 109.6 million pounds on January 1, 1961, were smaller than those of a year ago (112.6 million), decreases occurring in types 21 and 22, and a slight increase in type 23. Virginia fire-cured holdings on January 1, 1961, were 22.8 million pounds; Eastern District Kentucky and Tennessee fire-cured, 71.2 million; and Western District, 15.6 million. Sales of the 1960 crop of type 21 on the auction markets prior to January 1 totaled 3.7 million pounds (4.9 million up to the same date a year ago). Markets in types 22 and 23, as is customary, did not open until after January 1.

Holdings of dark air-cured tobacco totaled 65.7 million pounds on January 1, 1961--5.4 million less than were reported a year earlier and 11.5 million below 2 years ago. Stocks of each of the dark air-cured types showed decreases. One Sucker stocks on this January 1 were 40.0 million pounds; Green River, 20.5 million; and Virginia sun-cured, 5.2 million. Auction sales prior to January 1 totaled 7.9 million pounds (9.9 million the previous year for the same period).

CIGAR LEAF STOCKS

Holdings of filler and wrapper kinds up slightly; binder decreases

Imported cigar leaf stocks at record level

Holdings by dealers and manufacturers of all domestic types of cigar leaf tobacco were reported as 259.0 million pounds (farm-sales weight) on January 1, 1961 (255.5 million a year earlier). Stocks of foreign-grown cigar leaf totaled 64.9 million pounds (unstemmed equivalent) on this January 1 reporting date--22.3 million more than holdings on the same date a year earlier (42.6 million), and 31.3 million more than stocks reported 2 years earlier.

Cigar filler type stocks totaling 149.8 million pounds were 2.2 million larger than those of a year ago (147.6 million). However, of the separate types, only Pennsylvania filler holdings were higher as stocks of Ohio and Puerto Rican leaf were slightly less. Pennsylvania Seedleaf stocks this January 1 were 97.6 million pounds; Ohio filler, 15.2 million; and Puerto Rican, 37.0 million.

Stocks of cigar binder types were 77.8 million pounds on January 1, 1961 (78.3 million on the previous January 1). Holdings of the Connecticut types were lower, and of the Wisconsin types higher, as compared with a year ago. Stocks of Connecticut Valley Broadleaf this January 1 were 19.3 million pounds; Connecticut Valley Havana Seed, 14.7 million; Southern Wisconsin, 21.0 million; and Northern Wisconsin, 22.9 million.

Shade-grown cigar wrapper stocks this January 1 were 31.4 million pounds--1.9 million more than were reported a year earlier (29.5 million). Stocks of both types 61 and 62 were higher, compared with the previous January 1. Stocks of Connecticut Valley Shade on January 1, 1961, were 20.6 million pounds, and of Georgia and Florida Shade, 10.8 million. It appears likely that all of the 1960 crop of 20.7 million pounds was in stocks on January 1, 1961.

Stocks of foreign-grown cigar leaf, as of January 1, 1961, were divided as follows: Cuban, 42.2 million pounds; Philippine Islands (Manila), 11.6 million; Sumatra and Java, 864 thousand pounds; and miscellaneous foreign-grown cigar leaf, 10.2 million.

LEAF REPRESENTED IN STOCKS OF TOBACCO SHEET (see table 5)

Stocks represented in tobacco sheet show increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 5.6 million pounds (reporting weight), compared with 4.6 million on the previous January 1. Of the total in "tobacco sheet" this January 1, 3.8 million pounds was for use in cigarettes and smoking tobacco; 1.8 million for cigar binder; and a very small quantity for wrappers for small cigars.

Table 1.--Average percentage of weight remaining after handling, sweating, drying, and stemming, and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco 1/

AUCTION MARKET AREAS (TYPES 11-37)

	Type number	Yield realized from farm-sales-weight to				Factors to multiply by to convert:	
		Unstemmed			Stemmed	Stemmed stocks to unstemmed equivalent	Unstemmed stocks to farm-sales-weight equivalent 2/

1/ Based on information from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. 2/ Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage. 3/ See footnote 2 on page 7 for conversion factors to farm-sales-weight equivalent for cigar leaf except Type 46. 4/ Foreign-grown stocks not converted to farm-sales-weight equivalent.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, January 1, 1961, compared with other quarters 1/ 2/

Total All Types	11-90	4,784,134	4,844,968*	4,965,756*	4,476,270*	4,338,780*	4,693,923*

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.
2/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for January 1, 1961 are as follows: Type 41, 105; Types 42-44, 112; Type 51, 104; Type 52, 106; Type 54, 105; Type 55, 105; Type 61, 108; Type 62, 112. January 1, 1961 figures subject to revision.
3/ For explanation of stocks included in this classification, see footnote 5 on page 15.
4/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.

* Revisions.

1960	5.9	---	1.7	7.6	3/9.0	16.6				

1/ Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

2/ The carry-over stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ December 1 estimate, U. S. Crop Reporting Board.

Table 4.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, January 1, 1961 compared with January 1, 1960, and October 1, 1960

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet.
2/ Subject to revision.
3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.
4/ Includes Puerto Rican on the Island, Type 46.
5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.
6/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

* Revisions.

Table 5.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and for cigarettes (including smoking tobacco), separately 1/

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 5 on page 15.

Table 7.--Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, January 1, 1961 compared with other quarters 1/ 2/

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1960, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 15.

5/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.
